

ARENA SOCCER RULES

Spring 2008

1. Official Rules:

- A. Scoring: A goal is scored when the entire ball goes completely over the outside edge of the goal line, under the crossbar and between the goal posts, while the ball is legally in play. Any player on a team may score goals, including the goalkeeper. Any team with a 10 or more point advantage will have their score blanked from the scoreboard.
- B. Three-Line Violation: A player is guilty of a three-line violation when he/she passes or last touches the ball across three lines in the air towards his/her opponents goal line without the ball touching another player, the perimeter wall or the referee between the red lines. The opponents will receive a free kick at the center white line. The "Three-Line Violation" does not apply to direct free kicks, and is at the discretion of the referee.
- C. Goal Area: The goal area is the blue area directly in front of the goal. Players may go in the goal area to save a goal or score a goal when the ball is in the goal area. Once the goalie has possession of the ball with his/her hands, the attacking team must vacate the goal area.
 - 1. The Pee-Wee league will use smaller goals (almost the size of hockey goals.)
 - 2. K-League and above will use the regulation size soccer goal.
- D. Ball out of play: The ball is out of play if a goal is scored, the ball goes over the perimeter wall, hits the basketball apparatus or the referee stops play. The clock stops when instructed by the referee. Play will be restarted at the referee's discretion, free kick, drop ball or kickoff.
